

# Masterrit Compensation Plan

- Fast Start Bonus

Pro \$250 >> \$50

Pro Plus \$2000 >> \$400

- Team Volume Commission (TVC)

Every Pro \$250 Package gives 100SV (Sales Volume)

Every Pro Plus \$2000 Package gives 1000SV (Sales Volume)

The 100SV or 1000SV are giving to the whole team in the same arm, however they want to make a balance in the other arm to get commissions. So, once anyone has 1000SV in the same arm of his downlines or Uplines, and made sales in his other arm for 1000SV then they will get \$200. For each 100SV meets with 100SV they will get \$20. The minimum here is 100SV with 100SV. So if we have for example 100SV with 80SV they will not get any commissions until they complete the other 20SV with 80SV to make a balance of 100SV with 100SV and get a full \$20.

We have a maximum of commission paid daily on the Team Volume Commission (TVC) It depends on the rank of each member.

First let's explain what are the ranks and how they can achieve them.

- 1 Star is achieved when someone sponsor 1 with Pro or Pro Plus package in the right arm and 1 with Pro or Pro Plus package in the left arm. If someone sponsored just one direct in right or left arm, and his/her Uplines spillover 1 in the other side, then this person won't get TVC commission as they didn't qualify for the first rank. So, once they achieve the first rank 1 Star they will start to get TVC on the new signups not the old ones.
- 2 Star is achieved when someone is achieved 1 Star Rank and generated sales of \$10K. The sales maybe achieved by him, or by his direct not by spillover by his/her Uplines. And the sales should be in both sides right & left. The maximum sales calculated in each arm is 50%. So if someone achieved 1 Star and make \$8K sales in one arm and \$4K sales in the other arm, then we will get maximum \$5K from the \$8K and the total of \$4K. Then, they will wait for generating another \$1K in the same side of \$4K to get the rank. And we have another condition here, they should have 1 person of their team to

achieve 1 star in each arm for sure. So, if they achieved the sales and everything but they don't have 1 with 1 star in each arm then they will not qualify, and these people shouldn't be spillover, they should be direct from him/her or by his/her directs.

- 3 Star is achieved when someone is achieved 1 Star plus \$50K sales same condition as previous rank by his team not spillover. And to have 2 persons have achieved the previous rank 2 Star, 1 in each arm and by his team not spillover by Uplines. And the sales maximum 50% per arm.
- 4 Star is achieved when they are 1 Star plus 1 extra direct, this person no matter in the right or the left. Maybe 2 right & 1 left or 1 right & 2 left it's okay. But the sales should be achieved through these 3 arms. \$210K is required to be achieved in the 3 arms with maximum 35% per arm this time. And to have 2 persons have achieved the previous rank 3 star in 2 different arms, however they should be one in the left and one in the right. So if this person sponsored 2 in the right and 1 in the left, and the 2 who achieved the 3 Star rank in the right, they will not achieve the rank. To achieve the rank they should have 2 persons in different arms & different sides.
- 5 Star is achieved when they have the same 3 directs with sales of \$1.8M. The sales should be in 3 arms each arm has a maximum of 35%. And to have 2 persons with the previous rank 4 Star with the same conditions, in 2 different arms & 2 different sides.
- 6 Star is achieved by having 4 directs and require \$5M sales with 30% maximum per arm, and to have 3 persons have the previous rank of 5 Star in 3 different arms, but at this condition they can have 1 in side & 2 in another side but not the 3 in the same side.
- 7 Star is achieved by having 4 directs and require \$10M sales with 30% maximum per arm, and to have 3 persons have the previous rank of 6 Star in 3 different arms, and the same condition as last rank.
- Star Elite is achieved by having 4 directs and require \$100M sales with 30% maximum per arm, and to have this time 4 persons have the previous rank of 7 Star in 4 different arms and to be 2 in the right side and 2 in the left side.

#### - Money Box Commission

An additional amount from their TVC is deposited into their Money Box every commission cycle: for every sales matching cycle (100 left - 100 right) \$1 is placed in the money box. They will be available to withdraw after 12 months from your registration. But we have condition here that they have to be active for 52 weeks every week they will get generate at least 1 cycle. If they missed a week without any cycle then the money box will be zero and start calculating from scratch. Also we have another

condition here they will have to be 2 Star and above to get this bonus.

– Generation Matching Bonus

It's additional commission based on the Team Volume Commission (TVC)  
Everyday we calculate the TVC a percentage will be added on TVC based on the Rank of each person.

The matching bonus is 5% additional on each sales level. Level 1 has all the direct people by someone let's say person A. So all directs by A will be in level 1. And all directs of people in level 1 will be in the level 2 of person A. And all directs of level 2 will be in the level 3 of person A and so on until level 9!

The matching bonus is 5% up to level 7

1 star: up to level 1

2 star: up to level 2

3 star: up to level 3

4 star: up to level 4

5 star: up to level 5

6 star: up to level 6

7 star: up to level 7

Star Elite up to level 9

So here all Ranks will get 5% until 7 Star 5% up to level 7

But only Star Elite will get 5% up to level 7 and 1% on levels 8 & 9
